Advance in Prices.

HOGS, TOO, JOIN IN THE UPWARD MOVE

OFFICE OF THE PITTSBURG DISPATCH, WEDNESDAY, January 30, 1888.

Monday's receipts of cattle were 85 loads, about the same number as the previous Monday. Among the receipts were eight loads of stockers weighing about 800 pounds, which did not meet with a very brisk demand. In fact a few were left unsold at last accounts. It appears to be too late in the season for a good trade in stockers. With the exception of these the grade of cattle received varied very little from last week. The run this week consisted mainly of light weights. This class has met with readiest sale for some weeks

The few loads of heavy cattle received were heavy in more than one sense, as demand for this grade was very slow. There were two carloads weighing 1,470 pounds which brought \$4.50. The same would have readily com-manded \$5.00 per hundred two or three weeks ago. A few heavy cattle remained unsold to-

While there is no change of price this week as compared with last, there is no improvement in tone of markets. If any difference trade has been slower, excepting for good butcher stock weighing from 1.100 to 1.300 pounds. The complaint all this season among stockmen has been that too much heavy-weight live stock is coming to markets.

Farmers all over the land appear to have come

to the conclusion that they can get most for their corn by putting it into cattle and hogs. This has brought an overdose of heavy-weights which makes them slow of sale. Veal calves continue in small supply and are firm at prices ranging from 6 to 7c, according

Sheep and Lambs.

Sheep and Lambs.

The run of sheep has been very light, lighter than for some weeks past. Receipts on Monday were 18 loads, and Tuesday 12 to 15. The small supplies have stiffened prices, which are 186256 higher than ruling rates last week. Some put the advance at still higher figures. Prices here were more than 34c higher on Monday than at Buffalo. Extra 80-pound wethers were sold at 65/2004. The improvement in prices was mostly for choice sheep, as the supply was far short of wants.

Lambs were scarcely any higher than last week. Markets here for sheep and lambs have been as good, if not better, this week than any place in the land. Hogs.

With a very light run of hogs all week prices have been steadily advancing. Tuesday's re-ceipts were 12 cars, to-day's still less. Yesterday prices were advanced 10 to 15 cents all along the line, and stock was all cleaned up. along the line, and stock was all cleaned up.
Still further advances are reported to-day. The
range of prices is \$5.30 to \$5.45.
From Chicago the word comes that receipts
there to-day are 20,000 head, and prices 5 cents
above yesterday with markets firm. The run
of heavy hogs has not been as large this week
as for months past. Cincinnati proves a better
market than ours for heavy weights, and many
shippers who would naturally send stock here
are shipping of late to the Queen City. The
hogs most wanted here are those weighing from
200 to 250. Those above 300 go very slow this
season.

McCall & Co.'s Review. The supply of cattle this week was fair.

Market steady at about last week's prices. We give the following as ruling prices: Prime, 1,300 to 1,600 hs., \$4 40@4 80; good, 1,200 to 1,400 hs., \$5 75@4 25; good, 1,000 to 1,200 hs., \$8 50@4 00; Si 75@4 25; good, 1,000 to 1,200 hs., \$3 50@4 00; rough fat, 1,100 to 1,300 hs., \$3 40@3 65; common to fair, 800 to 1,000 hs., \$3 40@3 65; common to fair, 800 to 1,000 hs., \$3 00@3 25; bulls and fat cows, \$2 00@2 75; fresh cows and springers, \$20@40 per cwt.

The receipts of hogs this week were light. Market active on light Yorkers and slow on heave. We quote as follows: Philadelphias, \$4 90@5 10; best light Yorkers, \$5 25@5 40; heavy Yorkers, \$5 25@5 30; rough, \$4 00@4 50.

The receipts of sheep Monday and Tnesday were light, and the market ruled strong at an advance of 15@30c per cwt. on all grades. Today's receipts light. A WISE PRECAUTION.

Violent Death of a Man Who Was Insured for Thousands.

One of the directors of a Pittsburg bank related an incident yesterday which contains a moral that should be carefully studied. A man moral that should be carefully studied. A man well known in business circles here, but who lived in a neighboring town, carried an acci-dent policy of \$28,000-some of it taken out quite recently. He traveled considerably, and took this plan to provide for those dependent upon him in case the unexpected should hap-

pen.

A short time ago he went to Michigan on husiness. While riding in the cars there one day last week, in company with three of his friends, and having a good time, the train ran off the track, and all lour of the men were instantly killed. The insurance policies, all in regular form, were found in the man's pocket and forwarded to his family, who will get the \$28,000, placing them in independent circumstances. But for this forethought they would have been left destitute.

The Big Borough Up the River Struck by a Business Revival. McKeesport is in the swim. A real estate McKeesport is in the swim. A real estate agent who operates in the big borough said yesterday that he had never known such a demand for property there as at present. Almost every lot in the corporation has been gobbied for many experiment or speculation—largely the former—and people were turning their longing eves to the suburbs. The average price of desirable lots is about \$600.

Business of all kinds, he added, was on the jump. The project for a new railroad depot

jump. The project for a new railroad depot added to the general activity. Several business houses were in course of construction. One of them would cost about \$50,000. Others were in contemplation. The population was steadily growing. His conclusion was that, if business encountered no setback, of which there were indicated the truth would soon contract. indications, the town would soon outgrow slorough clothes.

the Business Outlook.

Rule the Roost for One Day. SWITCH AND SIGNAL CRAWLING UP

Evidence continues to accumulate of a spring trade of unusual dimensions. Business of all kinds has never been in better condition for a boom. Big crops and cheap money, together with a disposition to "rush things," cannot fail to stimulate all existing industries and promote the establishment of others of more or less importance. Said a Fourth street banker yesterday: "The outlook for new business in Pittsburg is as good as could be desired. I know of at least half a dozen new firms that will begin operations as soon as spring opens. We have already opened accounts with some of these men. Besides, a number of outside concerns, some of which have large capital, will probably be attracted here by the superior advantages which the city offers in the way of manufacturing. I have talked with the representatives of some of these firms, who expressed themselves as perfectly satis-fied with their observations, and they had no doubt their principals would be equally favorably impressed. Among these probable additions to our industries is an Eastern iron plant that at present employs 300 men. We CORN—No. 2. The same hopeful feeling predominates in real estate circles. A Grant street agent of 25 years' experience expressed himself in this

"Business in my line has not been so promising since the crush of 1873. Everything is in demand-business houses, dwellings and lots. As proof of this I may refer to an affair of my own. A short time ago I obtained control of about 30 building lots in a neighboring borough. The location is not of the best, being low and swampy, but I have had such a run for the lots that I expect to close them all out in a few weeks. This shows that everything goes, and at good prices, too. Everybody seems to have money to invest in some description of real estate. Another significant feature of the situation is that there are very few forced sales. The Sheriff's occupation is almost gone in this respect. Looking at both sides of the subject I am inclined to think that the business season about to open will be one of the best we have ever known."

These views are shared by capitalists and manufacturers generally. Iron men are look-ing ahead to busy times. The railroads, having passed through their most trying ordeal, are in condition to invest more freely in repairs and betterments; and building operations promise to be on a large scale. These and other equally favorable circumstances are interpreted by all classes of business men as pointing unerringly to a season of great commercial and financial activity.

Varsous theories are set forth to account for the peculiar condition of the market. Just when everybody—except the powers behind the throne—was looking for an advance, the slump came. The real cause may be attributed to uncertainty and lack of support, there being very few buying orders. The uncertainty in regard to the disposition of the producers 4,000,000 or 1,000,000 barrels and the prospect of two or three wells coming in in a day or two contributed to the general weakness. Experienced operators think the market has about touched bottom, but they have made the prediction so often and been deceived that they are not disposed to bank upon their private views. At all events, it is a good time for the boys to make haste slowly. The hidden hand will soon be unmasked.

WANT OF HARMONY

among the Railroads Gives the Bears Chance-Scalping on Wall Street-Values Lost and Recovered-Bonds Very Active.

New York, January 30.-Speculators are till awaiting the final outcome of the efforts to create harmony among the railroads in the West, and while new buying of securities is confined almost exclusively to bonds, no move ent is made in the stock market. After the ittle spurt of yesterday the market drifted oack again into most extreme dullness to-day, and the dealings were principally scalping for and the dealings were principally scalping for eighths and covering operations of the smaller bears. The business done was only about two-thirds of that of yesterday, and four stocks monopolized the greater portion of that. A drive was made at Atchison principally for Boston account, but the result of the attack was insignificant. New England was especially strong and shows a marked improvement this evening. The specialties were stronger, and all the marked improvements were made in these stocks, Big Four being the most prominent for the strength displayed and closing at the highest figures.

the se stocks, Big Four peing the most prominent for the strength displayed and closing at the highest figures.

The opening prices were somewhat irregular, but generally lower as compared with the final figures of last evening, Atchison developing decided weakness in the early trading. Slight further losses were sustained over most of the list. The trading was confined to about a half dozen stocks, and the weak tone quickly disappeared, everything except Atchison soon reaching higher figures than those of the opening. The fluctuations were confined to the smallest fractions, and the market drifted into the most intense dullness, which continued unrelieved except by the strength developed in a tew stocks until the close, the tone continuing firm throughout and becoming more pronounced as the day wore along. The market closed dull, but firm, generally at about the best figures.

The railroad bonds were still very active although the aggregate of the sales showed a marked falling off from that of the past two days. The Reading issues were still the leaders for activity, notwithstanding that their totals were much reduced, and the Fort Worth and Denver 1sts also became prominently active. The tone of the dealings was not unvary-

totals were much reduced, and the Fort Worth and Denver 1sts also became prominently active. The tone of the dealings was not unvaryingly strong to-day, and some bonds are lower, but most of the list show advances, and Jersey Central conivertibles rose ½ to 125, Morris and Essex 7s of 1900, 2½ to 125, and Illinois Central 3½-63½ to 85.

WORK is progressing on gas well No. 2 at

Insurance business was fairly profitable the past year according to reports of various PENNSYLVANIA RAILROAD officials talk of putting on more local express trains to head off the traction people. EXPRESSIONS on 'Change yesterday were decidedly unfavorable to Senator McLain's bill to tax oil and gas leases. Captain Barbour, of the Exchange, had another severe attack of rheumatism yester-day. He put the business through, however, n good shape. The two Brush creek wells expected in yesterday were not forthcoming. Keeler, Long-fellow & Co.'s well in the Macksburg district yielded 500 barrels, but half of it was water. DOMESTIC MARKETS.

Grein Exchange Waking Up---Sales Larger

WEDNESDAY, January 30, 1889. Country Produce, Jobbing Prices. Creamery butter was advanced 2c at Elgin

This advance will reach our markets on Friday, when butter quotations will take an on Friday, when butter quotations will take an upward turn. Eggs also give signs of improvement, and larger purchases are reported than for several weeks past. Advices from New York are that cheese is up from 1/2 to 1/2c, and markets are firm all along the line. Trade here in produce lines is still quiet, but all signs point of the produce lines is still quiet, but all signs point of the produce lines is still quiet, but all signs points are provided. to an early revival. Weather gives pron doing better for dealers. The worst is over, and a start for general activity in trade circles may be looked for any day. The past week we have been having the darkness that precedes the dawn of a better day. Tropical fruits go slowly. The quality of oranges is much im proved of late and prices are higher. Still fur-ther advances are looked for as oranges grow

of indigent soldiers, \$4,500; new Court House, \$30,
(50). Total, \$1,011, \$500.

This makes a difference of \$437,093 53, the estimated amount necessary to be raised by taxation on the taxable property of the county.

For 1888 the amount raised was \$852,402 55, of which \$65,000 was for the new Court House. County Commissioner Mercer thinks the millage will probably remain at four mills as at present. The total taxable valuation will be about \$275,000,000, an increase of 10 per cent. To offset the increase they have decided to revise the occupation tax system and fix one figure, about \$100 for every occupation, as a Supreme Court decision says that where one lawyer makes \$10,000 a year and the other \$1,000, each shall be assessed the same.

This reduction would make the occupation valuation \$10,000,000 instead of \$34,000,000. The money raised on a four-mill basis will be nearly double what is needed: but a sinking fund will be created to redeem the Court House bonds. In the boroughs and townships an additional levy of eight-tenths of a mill will be made for a poor tax. pipe through the lands of the First Pool Monongahela Gas Coal Company. The com-pany says the roofs of their mines will be weakened, and the other fellows say they won't.

Judge Ewing will soon decide whether the digging of a trench will injure and cause to leak the roofs of coal underneath the ground. up. Seventy cases were on the list, and only one-half were tried, as the prosecutors or defendants in many had skipped or gone to the jail or workhouse themselves.

A great deal of trouble will be experienced in going over the old cases, as all track has been lost of many persons concerned.

Grain, Flour and Feed. Total receipts as bulletined at the Grain Ex-change were 31 cars. By Pittsburg, Ft. Wayne and Chicago, 6 cars of hay, 1 of oats, 1 of barley, 2 of flour, 1 of malt. By Pittsburg, Cincinnati and St. Louis, 4 cars of corn, 4 of hay, 2 of oats, 1 of middings. By Baltimore and Ohio, 2 cars of hay, 2 of corn, 1 of cats. By Pittsburg and Lake Erie, 1 car of hay, 1 of cats, 1 of flour, 1 of malt. Sales on call were the largest for several weeks past, aggregating 10 carloads, as follows: Seven cars of No. 1 timothy hay, \$14.50, February; 1 car extra No. 3 w. oats, 32c, 10 days; 2 cars No. 2 w. oats, 33c, February. Indications are that the "winter of our discontent" is over, in cereal lines at least, and that the revival so long looked for is dawning. There is certainly an improved tone to markets. We have good grounds for believing that bottom has been reached, and that from now on more cheery things may be truthfully spoken through this column.

(NEXT MONDAY.) OUR AUTHOR

S. BARING GOULD. Among the shining lights of the English literary firmament, a foremost position must be accorded to the distinguished novelist—S. BAR-ING-GOULD. It is not alone in the paths of light literature that he has gained a reputation. As an archæological student, an authority on folklore, myths and legends; a historian, a biographer, a writer upon natural history, and even as the Author of some popular volumes of bright and pithy sermons for children, he has done brilliant and enduring work. His Fictional writings are of the first order of merit, and are rapidly growing in popular favor. His Novels are so bracing, so original, so interesting, so destitute of cant, so sensational and yet withal so wholesome, that his next work of Fiction, now offered to the readers of The Dispatch, is sure of a hearty welcome by all classes. ING-GOULD. It is not alone in the paths of
